Next Generation
ENGAGEMENT AND THERAPY

MyndVR | Select Rehabilitation

Introducing our latest VR Innovation!

Experience our new ultra-lightweight immersive glasses and interactive VR experiences!

Virtual Reality-Based Wellness Solution

With access to restorative programming and an array of cognitive and physical games, MyndVR provides...

- Life skills
- Static and dynamic balance
- Coordination
- Range of motion

MyndEXPLORER

MyndExplorer: Travel back in time, ANYWHERE.

Ex. Visit your hometown, favorite vacation spot, or a historic landmark!

HTC Vive Flow - Comfort for the Aging Population

- Ultra-lightweight, glasses-like design: 189g vs 503g (Oculus Quest 2)

- Vision Support: Easy focus adjustments with diopter dials for both lenses

- Easy sanitization with removable face gasket

- Pair, control, and monitor multiple glasses (5+) with one tablet for increased efficiency

- Equipped with MyndVR's library of senior-friendly virtual reality experiences
  Ex. Travel, Music, Adventures, Concerts, Meditation
